

3rd Annual Community Partners in Prevention Leadership Forum

The Power of the Positive: Changing Norms to Create Healthier, Safer Communities

“Effective leaders dare to see the tiniest seed of the Positive in every situation, because they know it has the power to transform everything. Wise leaders realize the Positive is always present and that their primary job is to make this reality more visible to others.”

*— Dr. Jeff Linkenbach, Montana Institute**

We invite you to attend this year’s Forum, along with many of your fellow Community leaders and neighbors, invested in raising healthy Hampden and Wilbraham Youth.

- *Participants will learn about the transformational Science of the Positive evidenced-based framework and how this approach will enhance our work, impacting healthy youth development in our community.*
- *This training is a not-to-be-missed opportunity, offering an enhancement to how we approach our work, and our lives.*
- *Networking and collaboration will be encouraged in this highly-interactive discussion format.*
- *Training will be provided by Sara Thompson, from the Montana Institute.*

We are most effective when we work together!
